

AMERA MOHAMMED

FULLSTACK SOFTWARE ENGINEER

☎ +20 102 168 5965 ✉ ameraelsa3id@gmail.com 📍 Cairo, Egypt (Open to Relocation)

🌐 linkedin.com/in/AmiraElsa3id 🐙 github.com/AmiraElsa3id 📁 Portfolio

PROFESSIONAL SUMMARY

Full-stack software engineer with a BSc in Computer Science and hands-on experience designing server-side systems, RESTful APIs, and responsive user interfaces. Proficient across the stack: PHP, Laravel, Python, Django, Node.js/Express and DRF on the backend; React, Next.js, Vue.js, Angular and TypeScript on the frontend; MySQL and MongoDB for database design. Highly adaptable with a passion for continuous learning, quickly mastering new technologies, containerization tools, and modern workflows. Mentored 20+ developers and delivered 30+ technical workshops. Seeking a Software Engineering role to build robust, scalable, end-to-end products.

EDUCATION

ITI Diploma — Open Source Track (9-Month Scholarship)

2025 – 2026

Information Technology Institute (ITI), Mansoura

- **Ranked 1st on track** — intensive software engineering program covering full-stack multi-language development, system architecture, database design, and debugging workflows.
- Covered PHP/Laravel, Python/Django, MySQL, Linux administration, Apache/Nginx, DevOps fundamentals, and AI integration.
- **Graduation Project: RestoMind** — Smart restaurant management platform featuring Next.js frontend, NestJS/MongoDB backend, and Python FastAPI AI forecasting model. [Model] [Frontend] [Backend]

M.Sc. in Computer Science

2024 – Present

Mansoura University

Frontend Development Diploma

2023 – 2024

Route Academy

- Intensive specialization in React, Next.js, TypeScript, Tailwind CSS, and modern JavaScript patterns.

Bachelor of Science in Computer Science

Sep 2019 – May 2023

Mansoura University

- Cumulative GPA: 3.61/4.0 (Very Good) — Top 15% of graduating class
- Graduation Project: *D-Pathy* — AI-powered diabetic retinopathy detection app; awarded Excellent grade. [Code] [Demo]

PROFESSIONAL EXPERIENCE

Fullstack Software Engineer & Mentor — Route Academy

Sep 2024 – Present

- Developed, modified, and debugged full-stack application components, implementing user-facing features (**React.js**, **Next.js**, **Angular**) and supporting backend APIs (**Node.js**, **Express**).
- Mentored 20+ students weekly on React and Next.js, maintaining a 90%+ assignment-completion rate and delivering 30+ live workshops.
- Reviewed student code submissions and evaluated code for correctness, performance, security, and maintainability, reducing repeated errors by approximately 40% over two semesters.
- Expanded technical expertise through hands-on projects involving **Docker**, **CI/CD pipelines**, backend services (**Node.js** & **MongoDB**), agentic AI, and prompt engineering.

WordPress & Full-Stack Developer — Ave Events

Sep 2024 – Sep 2025, Full-Time

- Managed server-side configuration, custom integrations, and maintenance of 5+ WordPress sites with 99%+ uptime.
- Reduced average page load time by 25% through server caching, query optimisation, and plugin auditing.

- Resolved 15+ critical back-end and security issues, applying patches within 24 hours of discovery and configuring webhooks for automated workflows.
- Configured Apache-based hosting environments and managed MySQL databases for all properties.

PROJECTS

NodeJS Posts API — Backend Service

Node.js, Express, MongoDB, JWT, Joi [Code]

- Designed a RESTful API with JWT authentication, role-based access control (user/moderator/admin), and owner-enforced post CRUD.
- Integrated Kashier payment gateway for donation flows with signed-webhook verification, plus transactional emails via Nodemailer/EJS.
- Hardened the API for production with Helmet, rate limiting, Joi validation, and NoSQL-injection sanitization; documented endpoints via Postman.

AI Chat Clone

React, Tailwind CSS, Express, Hugging Face API, Supabase, Whisper [Demo] [Code]

- Built an AI chat app with 5 conversation modes, real-time SSE streaming, Whisper voice input, and file attachments with FLUX.1-schnell image generation.
- Implemented context management with history trimming, prompt-injection safety filtering, and Supabase session persistence across a responsive layout.

Hotel Management System

Laravel, Vue, Inertia.js, MySQL, Stripe, Tailwind CSS [Demo] [Code]

- Built a full-scale hotel management platform with RBAC for Admins, Managers, Receptionists, and Clients.
- Implemented reservation workflows, room/floor allocation, and Stripe payment processing.
- Used Spatie Laravel Permission for granular role management across two isolated dashboards with separate authentication guards.

Cafeteria Management System

PHP, Custom MVC, MySQL (PDO), Bootstrap, Apache [Demo] [Code]

- Built a platform from scratch using a custom PHP MVC framework with Composer autoloading and PDO database abstraction — no external framework.
- Developed the Admin Orders module with order lifecycle management, transaction handling, and input validation, deployed on Apache.

TECHNICAL SKILLS

Backend: PHP, Laravel, Python, Django, DRF, RESTful API Design, Express.js, Node.js

Frontend: React, Next.js, Vue.js, Angular, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, SASS

Databases: MySQL, PostgreSQL, Eloquent ORM, MongoDB, Supabase

Server & DevOps: Linux, Apache, Nginx, Git / GitHub, CI/CD Basics, Docker

AI / GenAI: LLM API Integration (OpenAI, Hugging Face), Prompt Engineering, RAG Fundamentals, Vector Databases (Supabase/pgvector), Function Calling, Streaming Responses (SSE), Speech-to-Text (Whisper), AI-Assisted Development

Tools: Figma, Postman, Browser DevTools, Lighthouse

HONORS & ACHIEVEMENTS

- **Silver Medal** — Huawei ICT Competition 2022 (national-level technical competition).
- **CIS College Team Member** — Contributed backend development (Laravel) and multimedia production for Hack Your Future 3 & 4.

LANGUAGES

Arabic — Native

English — Professional Working Proficiency (Fluent)
